

What do our attendees have to say?

- Everything FELT GOOD from first day.
- I was nervous to present but it was non-intimidating.
- I've never been to a multidisciplinary conference before but as a business professional, I was able to learn from education and behavior science presenters too.
- The research was usable and could be applied to my practice.
- I was not put on the defense with our research. I just shared what I had learned.
- There was an overarching respect for all areas and disciplines.
- Room moderators were respectful and helpful.
- I found all the sessions to be very interactive.
- The "explore together" tone was refreshing rather than "let me tell you".
- Very Collegial---Not "I'm better than you"!
- CSI has a great response time for presentation acceptance. They really cut through all the red tape.
- It was a great way of making connections with people from all around the globe.
- There was an "absence of snootiness".
- The staff customer service was great.
- Everyone was very professional.
- I've made some lasting professional relationships.
- Great first conference---move forward with more!
- I really liked the limited 20 minutes presentation. It gave us time to share what we wanted but also allowed time for questions.
- It was a very CLASSY/PROFESSIONAL event.
- KUDOS!!!!
- There was a real uniqueness about a conference with a "small feeling".
- I liked the limited sessions.
- No stuffiness at this conference!
- Great gifts for all attendees. I have never received so many professional things.
- Being a member of CSI was like being royalty. They gave us a special gift and took us out for dinner.
- Professional atmosphere with the way everything looked and was organized.
