

## Facilitator Improvement Log

### *Based on Semester Evaluations*

Learning Community: **LQPV**

Date: **Spring 2015**

Return Rate: **88%**

Students rated my facilitation skills on average:  
**4.96 out of 5.0**

Evaluation Question	Rating	Reflection:	Plan:
The learning community improved your ability to think creatively as an educator	4.87	Although my ratings were very high this semester with 4.96 out of 5.0, I had one area that was lower than the others with at 4.87. I would like to work harder on this area to increase my student feedback next semester. I would like it to be a 5.	<ul style="list-style-type: none"> <li>• I will build more student reflection time into the schedule.</li> <li>• I will ask the students to use this time to take the course content from the weekend to think “creatively” about how to integrate the concepts into their curriculum.</li> <li>• Ideas will be shared.</li> <li>• I will also ask the students for additional ways to increase their creativity.</li> <li>• Finally, I will research “how to increase educator creativity” and implement what I find into the LC weekends.</li> </ul>
